

Submitter: Carver Akiteru Oblander

On Behalf Of:

Committee: Joint Committee On Transportation

Measure, Appointment or Topic: HB3231

Passenger rail infrastructure is vital to the future of our state. As evidenced in many other countries (and even other states), robust passenger rail infrastructure can open up many opportunities for residents and travelers to access economic opportunity, medical care, tourism, and visitation of family and friends. Prioritizing improvement of passenger rail infrastructure will be key to both maintaining and expanding the usefulness of rail service to Oregonians. Please support this bill.
