

Submitter: D Torres

On Behalf Of:

Committee: House Committee On Higher Education and Workforce
Development

Measure, Appointment or
Topic: HB2550

Dear Committee Members,

Although this bill may have good intentions, I OPPOSE this bill because I believe that eligibility MUST require completion of high school IN this state. A person also MUST have earned a cumulative grade point average of 2.0 or better in high school to attain eligibility.

Oregon residents deserve to have precedence and incentives moreover than anyone who is not a resident on what Oregonian's tax dollars are used for period. I also OPPOSE lowering standards for eligibility. Oregonian tax dollars should not be used frivolously for non-residents or for lowering standards.

Respectfully,
