Measure, Appointment or Topic: SB934

I'm writing in support of SB 934 because many highly capable students are not identified as TAG, sometimes because families don't know how to request an evaluation or because they are intimidated by the process or because they are waiting for school staff to lead the process. Under-resourced, bilingual and disabled TAG students are wildly under-identified in my district. Universal referrals allow more equitable TAG programs, more accurate data about student demographics, and a clearer picture of TAG students and their needs.
