

Submitter: Leisha Holmes

On Behalf Of:

Committee: House Committee On Climate, Energy, and Environment

Measure, Appointment or Topic: HB3170

Having been in the midst of a tornado in Wisconsin, multiple floods in Louisiana, fires in California, and 3 lockdowns and 4 school intruder evacuations, any mental health supports and immediate food resources would indeed have been helpful. Chaos in personal safety brings on a new cycle of behaviors and emotions, especially when I was caring for younger people including some with specific ability needs.
