I am writing in support of legislative support for the OregonFlora. This tremendous project has taken many years and is so near completion. The online version is complete but not the hard copy volumes. As someone who loves to walk in our forests, and other natural areas I find myself constantly consulting the OregonFlora to identify a plant. As someone who loves to walk in our meadows and wetlands, I find myself constantly consulting the OregonFlora. There is just no substitute. This is the only source for information about all the plants in Oregon. Please support the OregonFlora Project so that it can be completed.
