

Submitter: Stephen Meyers

On Behalf Of:

Committee: House Committee On Agriculture, Land Use, Natural  
Resources, and Water

Measure, Appointment or Topic: HB3173

As a botany instructor at Oregon State University, I use the OregonFlora website, books, and other tools provided, in my classes, on a regular basis. Not only do I find their tools informative and immeasurably useful, but my students do as well. When talking with former students, many have commented that they use the Oregon Flora resources as a valuable supplement in their other botany classes, as well as in their careers after graduating. For these reasons I very much support the passage of HB3173 and hope you do as well.
