

Submitter: Ann Jamison
On Behalf Of: Beaver Works
Committee: House Committee On Climate, Energy, and
Environment
Measure, Appointment or Topic: HB2980

HB 2980 will provide much needed resources to support ODFW and local wildlife conservation organizations in implementing the provisions of the Beaver Believer Bill passed last year.

Beavers are a critical resource in advancing aquifer recharge and fire resiliency in eastern Oregon. Those issues are clearly bipartisan and should be provided with implementation funding.

Thank you for your support.

Ann Jamison
