

Submitter: HOOVER CHAMBLISS

On Behalf Of:

Committee: House Committee On Climate, Energy, and
Environment

Measure, Appointment or
Topic: HB3170

Due to the fact that I am directly impacted with the immediate effects of both extreme heat and extreme winters. I would like to strongly urge the legislature to support all funding that will provide humane cooling centers in the hot summers and heating centers during the cold winters. As a disabled person in a wheelchair with MS I would like to represent the disabled and senior centers as and the un-housed and the homeless who are particularly exposed to the dramatic climate change.
