

Submitter: Donald Doerfler

On Behalf Of:

Committee: Senate Committee On Natural Resources and  
Wildfire

Measure, Appointment or  
Topic: SB747

Senate Committee Members,

I strongly oppose SB 747. Today agricultural farmers are faced with very tight margins. All inputs, including fertilizer are carefully considered because of the high costs involved. All crops and soil types have very different needs. Rates alone can not determine an over application. The concept as drafted reflects a lack of understanding of both crop nutrition science and groundwater impacts.

Please oppose SB 747.
