

Submitter: Jennifer Will

On Behalf Of:

Committee: House Committee On Climate, Energy, and Environment

Measure, Appointment or Topic: HB2980

I am in support of the House Bill 2980 to create a wildlife stewardship program and grants for wildlife rehabilitation centers like Think Wild where I volunteer in Central Oregon. Being that the organization is a non-profit 501c3, it is reliant on public donations to continue the important and necessary work of treating native birds and animals. If this bill passes, I think it would help immensely to afford wildlife rehabilitations centers the extra support they need to continue their mission of excellence to God's creatures.
