Measure, Appointment or Topic: HB3173

As a private citizen but avid gardener I have found the two existing volumes of Oregon Flora to be invaluable resources. But for me, the real treasure is the website which continues to develop and amaze with the breadth and depth of information. It's time to fund this project directly by the State of Oregon in realization of the value it brings to biologists, botanists, land managers, and citizens such as myself. I encourage support for this bill.
