

Submitter:	Joe Schumacher
On Behalf Of:	JRS Farms Inc
Committee:	Senate Committee On Natural Resources and Wildfire
Measure, Appointment or Topic:	SB747

With the profit margins as tight as they are and the price of fertilizers as high as they are there is no incentive to apply more than is needed to produce a crop. Fertilizer rates vary considerably from crop to crop and even from different varieties of the same crop. There needs to be input from experts in agronomy to show this bill is unnecessary. The incentive to not over apply is already there.
