

Submitter: Inmara Fenumera

On Behalf Of:

Committee: Joint Committee On Ways and Means Subcommittee On
Human Services

Measure, Appointment or Topic: HB5025

I support fully funding Oregon's Medicaid program because I rely on it to purchase my medications, which help me to remain healthy and alive, and to continue to receive the healthcare I need to function and hopefully someday recover from or adequately treat my chronic illnesses. I do not have the financial support or income necessary to continue purchasing my medications via any other means. Even a small copay is impossible for me to pay regularly. Without the support of Medicaid I would become more ill, more disabled, less able to support myself, and more expensive to support for everyone concerned.
