

Submitter: Rachel Morris
On Behalf Of: Ashton Stone
Committee: Senate Committee On Health Care
Measure, Appointment or Topic: SB538

I %100 believe that parents should be paid to give specialized care to their children!
As an Aunt of a child who was abused by a provider of the state it make SO much
sense to me that our children need more care than being provided!
No one, and I mean no one cares for their children like their parents do.
