

Submitter: Philip Spencer  
On Behalf Of: The Spencer family  
Committee: House Committee On Agriculture, Land Use, Natural  
Resources, and Water  
Measure, Appointment or Topic: HB3173

This group has brought together thousands with the nature that serves us so well in our lives and wealth. Including this insanely irreplaceable and priceless group into a university would insure its impact and strength. I love it, and I would love you for moving it along. I also do not take issue with rare species plant data sharing that has been mentioned by others. Data should be public, and I site James Mickley and bill's passed in California for this.
