

Submitter: Michael Brainard

On Behalf Of:

Committee: House Committee On Agriculture, Land Use, Natural
Resources, and Water

Measure, Appointment or Topic: HB2557

This bill appears to be written hastily without much forethought.

This bill could have been approached better. Why not propose a bill to require the octopus are native? Why not propose a bill to define safe raising of octopus?

What if our octopus industry starts to decline? Would it not be better to farm octopus instead?

I oppose this bill, and you should too.
