

Submitter: David Wall  
On Behalf Of: mr Oregon is Neutral on SB 894  
Committee: Senate Committee On Education  
Measure, Appointment or Topic: SB894

I am NEUTRAL on [SB 894].

I fully SUPPORT STEM activities and the basis to wi [SB 894] is conceived...

However, the Arts-Theater applicaations for example is not considered. For example, Nano-Technologies combined with Lasers and LEDs can have a pronounced contributions to Theater production lighting and sound systems.

Recording Arts: To my knowledge, There is not one "Recording Studio" anywhere in Oregon Schools. Reording Studios offer inexhaustibel activities in Electrical Engineering, Audio improvements for th hearing impaired whose cascading related technologies may be applied to a variety of sound-sensative sensor applications.

Dance Sports. Laser applications could be developed to analyze movement of the human body to prevent injuries.

BY now, you should get the idea.

STEM can and should be applied to all educational disciplines providing "Equal Opportunities" based on Merit for all parents to make informed ddecision and confer their expressed concents on the education of their children.

David S. Wall

Mr. Oregon Concurr and says, "Personally, I'd like to use Lasers at the Femto or lower levels for mapping celluar topographies."
