

Submitter: Kate C.

On Behalf Of:

Committee: House Committee On Climate, Energy, and Environment

Measure, Appointment or Topic: HB2980

I am writing as a concerned citizen and a strong supporter of wildlife conservation to express my wholehearted support for House Bill 2980. This important legislation will provide critical resources for wildlife rehabilitation centers, including our local wildlife rehab center, Think Wild, which plays a vital role in caring for injured, orphaned, and displaced wildlife in our community.

Wildlife rehabilitation centers like Think Wild not only rescue and treat native species but also contribute to environmental education and ecosystem health. Their work helps maintain the delicate balance of our local habitats, benefiting both wildlife and human communities. House Bill 2980 would ensure these centers have the necessary funding, resources, and regulatory support to continue and expand their efforts effectively.

As human development increasingly impacts natural habitats, the demand for wildlife rehabilitation services continues to grow. Supporting this bill is an investment in our state's biodiversity, public education, and environmental stewardship. By passing House Bill 2980, you will help safeguard the future of countless wildlife species and the health of our natural ecosystems.

Thank you for considering my support for this critical legislation. I urge you to vote in favor of House Bill 2980 and to advocate for the protection and rehabilitation of our state's precious wildlife.
