

Submitter: Glen Scheele
On Behalf Of:
Committee: Senate Committee On Natural Resources and
Wildfire
Measure, Appointment or Topic: SB747

Chair Golden, Vice Chair Nash, and members of the Senate Committee on Natural Resources and Wildfire:

My name is Glen Scheele and I reside in Cove, Oregon. I am writing today to support SB 747. It is important to control and mitigate groundwater contamination in sensitive areas. Groundwater Management Areas have already been designated by the state as having dangerous levels of contaminants. Not only does this hurt the people living here, taking away their assurance of clean drinking water, but it also impacts the environment and wildlife in the area, and threatens the ability of land to remain productive. This bill has been carefully crafted to apply to farms with 200 acres or more, who likely already track their fertilizer application, and it is not an enforcement or penalty bill. This is simply to make sure ODA has the information to advise farmers on programs and best practices that would help them not only protect water quality but save money on inputs.

This personally impacts me because we depend on a residential well for our drinking water and cannot afford to have our water contaminated. Everyone must take responsibility to protect our water -- please pass SB 747.

Thank you,

Glen Scheele
