

Submitter:	Debby Garman
On Behalf Of:	350 Washington County
Committee:	House Committee On Climate, Energy, and Environment
Measure, Appointment or Topic:	HB2961

On behalf of hundreds of members of the climate action group 350 Washington county, we say YES to this great bill! The ability to easily charge an electric vehicle removes a huge barrier for many potential users and this is absolutely low-hanging fruit in the incredibly important work to meet Oregon's mandated carbon reduction goals. The cheapest window for this important infrastructure development is during the initial construction phase. Yes, please, let's do this!
