The Corvallis Chapter of the Native Plant Society of Oregon which has over 100 members wishes to express our support for HB 3173. We feel that the oregonflora.org website an important tool for searching for information about our native flora. It is a vital and important resource about where our native plants occur, how common they are and what other species they are associated with in their habitat. It is a tool that is used by botanists as well as the general pubic. Please support State Funding for OregonFlora.

Thank you for considering support of HB 3173.
