1	Frequent customer discount	-\$65.70	-\$65.70
Total:			\$586.00

Work Performed:

10/17 Service call to troubleshoot a power loss at this home. Upon arrival, we found a failed connection to a spliced receptacle. We provided a temporary disconnect for safety, and can return at a later date to restore power.

We also noted a missing grounding connection at the panel, so we remade that connection safely.

Materials ***2- purple AL/CU wire nuts
