

Submitter: David Wall
On Behalf Of: Mr Oregon OPPOSES HB 3170
Committee: House Committee On Climate, Energy, and Environment
Measure, Appointment or Topic: HB3170

I OPPOSE [HB 3170].

[HB 3170] is designed to FUND "Non-profit and or Public Benefit Corporations."

From the TEXT, "... (b) "Resilience Network" means an association of facilities, organizations, resource providers or service providers [outside of a physical Resilience Hub facility that collectively serve the purposes of a Resilience Hub] that collectively supports community members to prepare for, adapt to or respond to social, emotional and physical disruption generated by ongoing climate change or other causes, and during and after an adverse event, emergency or disaster...."

The "Resilience Network" infrastructure was designed for the inclusion of the aforementioned "Corporation and Organization Funding" was the work of Governor Brown's goofy administration.

Oregon Counties already have Disaster Management Plans.

What is needed is more volunteers (all of us) to facilitate and prepare for disasters. When a disaster strikes all of us must work together to mitigate the suffering.

I do not support [\$10,000,000] from the GENERAL FUND for this illusory, hyped-up project.

[HB 3170] will require an expansion of government to monitor the Grant Money dispersals. In other words, [HB 3170] is going to cost additional taxpayer monies.

David S. Wall

Mr. Oregon Concurs and says, "Don't forget the foreseeable corruption and misuse of taxpayer monies when contracts are signed with the Non-profit and or Public Benefit Corporations for disaster related issues."
