

Submitter: Jodi Tanner Tell

On Behalf Of:

Committee: House Committee On Climate, Energy, and Environment

Measure, Appointment or Topic: HB2980

Please fund the Wildlife Stewardship Program. As Oregon's population grows, and as our reputation as a place for outdoor recreation brings in tourism & tourist dollars, the interactions between wildlife and people will only become more frequent. This program will put us on the right track for managing those changes, saving both people through increased public safety AND wildlife through increased care.
