

Submitter: David Wall
On Behalf Of: Mr Oregon SUPPORTS HB 2817
Committee: House Committee On Climate, Energy, and Environment
Measure, Appointment or Topic: HB2817

I SUPPORT [HB 2817].

Kudos is justified for good work!

Our Forrester requires more financial support.

Consider re-directing some if not all of the [\$10,000,000] from the asinine [HB 3170] to Fund wildfire prevention-use goats to eat the tall grasses.

David S. Wall

Mr. Oregon Concurs and says, "The use of Goats might sound silly but, they are great at removing tall grasses and other fuels that will enable conflagrations to spread to our forests."
