Committee: House Committee On Revenue
Measure, Appointment or Topic: HB2301

I strongly support passage of HB 2301. My family has rental & petroleum businesses owned by family. At time of my death the estate would be forced to sell considerable assets to pay current estate taxes. Oregon's state tax exemption has not changed in years & doesn't reflect inflation. Oregon is one of only 12 states that has estate taxes & has lowest exemption of any state. Passage of this bill is vital to my family & Oregonians.
