Measure, Appointment or Topic: HB3143

To whom it may concern,

I am writing to you in support of Measure HP3143. I feel very strongly that education and messaging are so important in our communities when it comes to wildlife. This measure will allow organizations throughout Oregon to educate and train landholders on how to manage Beaver conflict through nonlethal methods, allowing the population to continue to thrive and support are vast eco-system. Humans have the capacity to make a difference in so many ways, including the ability to be educated and trained, to support our wildlife in a way to allow us to cohabitate with wildlife, including Beavers, on this earth. Please help us, help the Beavers thrive!!!!

Best,
