

Submitter: Susie Stevens

On Behalf Of:

Committee: House Committee On Agriculture, Land Use, Natural
Resources, and Water

Measure, Appointment or Topic: HB3173

Wow! These are awesome statistics: Oregon has 4,886 unique plant species that grow without cultivation. Of these, 70% are native species, and 120 are endemic and grow only in Oregon.

The oregonflora.org website offers sophisticated search and plant identification tools, 1.48 million mappable plant occurrence records, 63,000+ color field photos, and fact sheets for every plant taxon. This is important to all us Oregonians, Plus Oregon's economy depends upon its botanical resources. Healthy forests, productive rangelands, agricultural operations, outdoor recreation sites, and native plant horticultural businesses all need reliable data which OregonFlora provides.

The requested support will leverage 30 years of research, volunteer effort, and citizen science contributions to develop the OregonFlora resources. Sustainable support will help ensure it is maintained.

Please support this important Bill.

Sincerely,
