

Submitter: John Livingston

On Behalf Of:

Committee: House Committee On Climate, Energy, and
Environment

Measure, Appointment or Topic: HB2961

I strongly urge you to pass this legislation as everyone needs to have an equal opportunity to electrify their vehicles and use a charging station very near their place of living. We need to require developers to install underground electricity capacity to allow quite a few residents of multifamily housing to charge their vehicles overnight. Please support this bill.
