

Submitter: Chris Genly

On Behalf Of:

Committee: House Committee On Climate, Energy, and  
Environment

Measure, Appointment or Topic: HB2961

I believe fossil fuels contribute to climate change, and that climate change is the most important issue of our time. I own a Chevy Bolt, an all electric vehicle, to do my part in protecting the climate. I urge you to pass this bill to give others, renters, the chance to move away from fossil fuels too.

Please support HB 2961 Relating to the capacity for electric vehicle charging required in certain newly constructed buildings.
