

Submitter: David Parker

On Behalf Of:

Committee: House Committee On Climate, Energy, and  
Environment

Measure, Appointment or  
Topic: HB2961

We are in the early stages of a global climate emergency. Every government and institution must do its part for future generations. Oregon has appropriately ambitious carbon reduction goals. To reach these goals, we need to enable as many Oregonians as possible to charge EVs. That includes renters who otherwise would be unable to charge their EVs. This is a simple, sensible step towards our climate goals.
