

Submitter: Erven Kincaid

On Behalf Of:

Committee: House Committee On Revenue

Measure, Appointment or Topic: HB2301

I am not a fan of the inheritance tax because it appears to me to be Double taxation .
But more than that

The one size fits all inheritance tax dosen't fit everyone.

Assets aren't just a number on the balance sheet. Some Assets earn substantial
income, others earn very little.

Please consider taxing inheritance on the income earned on the Assets. Say take a
five year average of the income and apply the tax the average.
