

Submitter: Cathy Lewis-Dougherty

On Behalf Of:

Committee: House Committee On Climate, Energy, and  
Environment

Measure, Appointment or Topic: HB2961

We are in a climate crisis, and must do what we can to save ourselves. As a drive of an electric vehicle I have seen how hard it is to find reliable charging. This is the biggest obstacle to adoption of electric vehicles - where they can reliably be charged.

Please pass this measure to alleviate this problem.
