

Submitter: Rebecca Lexa

On Behalf Of:

Committee: House Committee On Climate, Energy, and Environment

Measure, Appointment or Topic: HB2980

Good evening,

I am writing to support HB 2980. We need wildlife protections that are science-based and do not just rely on lethal solutions for wildlife conflicts. Educating the public and strengthening rehabilitation options will go a long way in solving these conflicts without loss of life. Thank you for your time.
