

Submitter: JOSEPH GREENE

On Behalf Of:

Committee: Joint Committee On Transportation

Measure, Appointment or Topic: HB3231

A downtown tunnel for the MAX system would easily increase the speeds across town to times that many people can rely on.

reducing our need for the steel bridge to handle train traffic makes getting a replacement faster.

We need fast, frequent and reliable transit.

All public works should have a public transit plan in place to increase commute and public use of projects.
