Testimony in Support of UI for Striking Workers (SB 916)

To the Senate Committee on Labor and Business:

No-one wants to stand outside day in and day out in the damp cold weather. We do it to stand up for what is right and just. We take savings that was meant for crowns and root canal's. Car in the shop, dishwasher broken. We stress and worry. We want to work. We exhaust our bodies to care for others. We need unemployment to help us stand up to protect ourselves.

Thank you for accepting my testimony and I look forward to your support.
