On Behalf Of: Mr Oregon OPPOSES HB 2347
Committee: House Committee On Housing and Homelessness
Measure, Appointment or Topic: HB2347

I OPPOSE [HB 2347].

[HB 2347] is designed to stuff housing for others down our throats, destroying once peaceful neighborhoods, high-valued farmland and just about every aspect of what makes Oregon great.

The chief architects for the aforementioned destruction of the sanctity of life in Oregon are the deceased (Thank-God) former President of the Senate our current Governor and the horde of their respective lackeys successfully masquerading as loyal Oregonian Legislators.

Now enters the Department of Land Conservation and Development (DLCD).

(DLCD) is a GENERAL FUNDED Department whose sole function is to act as the enforcement arm of the Land Conservation and Development Commission (LCDC). The (LCDC) is a Commission of seven (7) Members who are appointed by the Governor.

How can it be, an entire Department is created, funded completely out of the GENERAL FUND to enforce the dictates, mandates and environmental whims of a Commission whose Members are not elected but empowered to act as jackbooted social-engineering thugs.

[HB 2347] empowers the DLCD to assist jurisdictional planning (social engineering) to carve up precious Oregonian farmland and neighborhoods to support prior legislation, the insidious Housing Needs Analysis [HB 2001 (2019)].

The "Housing Supply and corresponding Affordability issues" are a direct and proximate cause of welcoming and or enticing people to invade a peaceful agricultural state bringing their troubled economic woes with them.

The Federally recognized Indian Tribes do not need any assistance in planning for housing-only the idiot invaders do. The Indians are smarter than the rest of us.

Mr. Oregon Concurs and says, "Oregonians should repeal a myriad of Legislation supporting Housing. People can go elsewhere to live out their lives if they cannot

support themselves without the aid of the welfare state's molly codlings."
