

Dear Oregon Legislator House Committee,

Hello, My name is Eddy James Antoniello and I would like to add testimony of my new flag design. I would like to make it an official new flag design for The State of Oregon, or have a "historic Oregon State Flag" and a "new Oregon State Flag" similar to how Utah State has recently in the past two years adopted their states new flag but maintained the original state flag as the Historical Variation which is nice. I feel my flag design is worthy of an official flag adoption to coexist with the current and original 1925 Oregon State Flag. Here Is my flag Design I hope you enjoy it and have potentially some consideration for a new Oregon State Flag Design Bill.

The Proposed bill describes the design as follows: The flag shall feature a vertical bicolor split with a navy blue field, with a white stripe in the middle, the Beaver off to the left of the white stripe with three blue stars from the middle to the right of the flags design.
