Measure, Appointment or Topic: HB3196

As a Court Appointed Special Advocate (CASA) for children in the foster care system, I advocate for siblings who lived under an order of protection.

These children are innocent victims living in the system with many needs brought on by their traumatic experiences.

They desperately rely on the services that VOCA funded agencies provide to support their mental health.

Children in the foster care system need you to adopt the amendment that includes CASA programs. They need you to please pass the bill out of committee.

Thank you!
