Measure, Appointment or Topic: HB3196

I'm urging you to support the bill HB 3196 to reinstate much needed funding to CASA/VOCA via a backfill measure.

I became a CASA volunteer to give and voice and a hope to children that I represent, because life has not provided them one so far. Many times we are the only consistent mature presence to these kiddos and as they are among our most vulnerable population, we can't yank funding to assist them now. It is imperative to move this forward out of committee. I appreciate your heartfelt consideration.
