

Submitter: Dane Dinsmore

On Behalf Of:

Committee: Senate Committee On Natural Resources and
Wildfire

Measure, Appointment or
Topic: SB769

Please provide each county the right to decide how to help predator management. Mule deer have suffered in our areas in eastern Oregon leaving it up to the government to pick up the pieces which lack in funding or effort. Method and means of predator control should be determined by each county as each county has specific experience and impact of the current state due to lack of predator management. Western Oregon should not control the outcome of mismanaged predators with our livestock and wildlife taking the brunt of a non science based decision. Please give rural eastern Oregon a voice for a change!
