

Submitter: Cathy and David Colburn
On Behalf Of:
Committee: Joint Committee On Transportation
Measure, Appointment or Topic: HB2232

HB 2232 is very important to our family, neighbors, other local residents and all wildlife living near Sandlake Recreation Area. It is also very important to the many visitors to Whalen Island County Park, Clay Meyers State Natural Area at Whalen Island, Sitka Sedge State Natural Area, Tierra Del Mar and nearby beaches. The bill offers a way to provide reasonable and enforceable sound limits to off road vehicles.

HB 2232 will help our family enjoy an outdoor picnic on a summer day without hearing excessively loud vehicle noise from SRA. We might get to sleep through a night without being awakened by the sound of an ATV at midnight or 4am. We often need to wear hearing protection when we are outside working in our garden or yard. The noise level is really that loud and that offensive. Please do all that you can to get this bill passed as soon as possible.

Thank you,
Cathy and David Colburn
