

Submitter: Shawn WHALEN

On Behalf Of:

Committee: House Committee On Education

Measure, Appointment or Topic: HB2729

School based health centers are worth funding and play an important role in the health and wellbeing of young people across our state. And they have a practically important role in our rural communities where access to quality healthcare is challenging. Helping young people to address their health needs early is a worthwhile investment. It as simple as an ounce of prevention vs a pound of cure. Please pass this bill and support school-based health centers. Thank you.
