Measure, Appointment or Topic: SB458

I would love to see this bill pass. I drive 30 a lot and it is horrible. You can't see the lines or roads and bad weather when it is dark. When it rains the roads are horrible with accumulated water, the ponds between Clatskanie always floods over and needs more guard rails in place. Having more cops patrol would be nice too. Lots of people pass people and I have seen so many near head on collisions.
