To who it may concern

My name is Austin Jackson. I am an avid outdoorsman I've spent my entire life enjoying the outdoors and what Oregon has to offer. Since the ruling change in 1994. Oregon's prey species have taken a massive hit. Cougars are not the only thing causing the decline in deer numbers in the state. But they do play a huge role in the decline. I believe that it should be up to the individual counties in the state to decide what is best for the ungulate population in their counties.
