

Submitter: Jesse Gonzalez

On Behalf Of:

Committee: Joint Committee On Transportation

Measure, Appointment or Topic: HB3155

I would use the Sxs to access trails right a cross the street from my property and within 5-10 miles of my property. There is no point to load truck and trailer just to cross the street, and unload. I also run a ranch out here and would use my Sxs to watch my animals as well as do small road side clean up and could even plow my road which isn't plowed often.
