On Behalf Of:

Committee: Joint Committee On Transportation

Measure, Appointment or Topic: HB3155

Please consider allowing utv operation on non interstate highways. In other states that allow this OMUTV traffic is not a problem. This could be restricted to rural counties. I for one use my UTV for spray operations and also travel to other properties to do the same. Current laws make this unlawful. Also it would be very beneficial for UTV vehicles using offroad areas like the backcountry discovery routes. Currently the only vehicles I can physically operate due to disability cannot legally operate on these routes. I have insurance but am not allowed to operate on these routes.
