

Submitter: Manny Beller

On Behalf Of:

Committee: Senate Committee On Natural Resources and
Wildfire

Measure, Appointment or
Topic: SB769

I support this measure because we next to bring back the opportunities to bring the cougar population back under control. The current population seems to be a bit higher than some officials would like to recognize. If we as a state were actually able to successfully manage the cougars instead of outlawing the most efficient way to hunt and manage them, we wouldnt have the problem we have that is need of a solid solution put back into place. Not only is big game hunting at risk but also recreation as all have heard of the more frequent attacks on humans in the last few years.
