Topic: SB769

The strategic use of hounds to manage cougar numbers is not only responsible, but a necessity when trying to keep a healthy amount of big cats in Oregon. Mountain lions are incredibly stealthy, and it is a challenge for any man to track one down by himself, thus leading to the extreme numbers of cougars in Oregon. Please except my support for the use of hounds to responsibly hunts these amazing animals. And further allow the other amazing animals, deer, elk, and all other prey to flourish. I support SB769
