Hello everyone

I'll just get to the point , you need to allow the use of dogs in the whole state of Oregon not just one or two counties just because 10 support it or 100,000 support it . These cats go where ever they want and take whatever they want . They need to be put back in line . Stop supporting the people who say no just because it might hurt their feelings our livestock and children need to be safe . When you or your children or family pet or hobby farm animals are on the other side of it face to face with that big cat you'll think twice . This needs to be put into place . The bears don't pose this big of a threat but they will if things don't change on this . These cats are out of control so do good and give us what we need to put them in check . I have livestock and have a cougar seen on my property but I don't want it taking any of my animals
